

BUILDING CHATBOT AND INTEGRATE TO APPLICATION

Date	1 Nov 2022
Team ID	PNT2022TMID18271
Project Name	Smart Fashion Recommender Application

Process

The screenshot shows the IBM Watson Assistant console. At the top, the resource name 'Watson Assistant-gt' is displayed with a green 'Active' status and an 'Add tags' link. To the right are 'Details' and 'Actions...' buttons. A left sidebar contains navigation links: 'Manage' (highlighted), 'Service credentials', 'Plan', and 'Connections'. The main content area has a heading 'Start by launching the tool' and three buttons: 'Launch Watson Assistant' (blue), 'Getting started tutorial' (white with a link icon), and 'API reference' (blue). On the right, there's a 'Plan' section showing 'Lite' and an 'Upgrade' button. Below this is a 'Credentials' section with 'Download' and 'Show credentials' links. It displays an 'API key' (masked with dots) and a 'URL' (https://api.us-south.assistant.watson.cloud.ibm.com/inst/). At the bottom, a breadcrumb trail reads: 'Home > Resources > Watson Assistant > Watson Assistant-gt > Service credentials'.

Customer starts with:

Enter phrases that a customer types or says to start the conversation about a specific topic. These phrases determine the task, problem, or question your customer has.

The more phrases you enter, the better your assistant can recognize what the customer wants.

Enter phrases your customer might use to start this action
